Note 1 - Summary of Significant Accounting Policies

This summary of significant accounting policies of Fortune Financial Services, Inc. (the "Company") is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity.

Description of Business

The Company is a non-introducing broker registered with the Securities and Exchange Commission ("SEC") and is registered with Financial Industry Regulatory Authority ("FINRA"). The Company is engaged in the sale of mutual funds, variable annuities, and life insurance policies.

Basis of Presentation

The financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC").

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. At December 31, 2018, the Company did not have any cash equivalents.

Revenue Recognition

In May 2014, FASB issued Accounting Standards Update ("ASU") No. 2014-09 which became ASC Topic 606, Revenue from Contracts with Customers. The core principle of Topic 606 is that an entity should recognize revenue to depict the transfer of services to customers in an amount that reflects the consideration of which the entity expects to be entitled in exchange for those services. The Company began applying this new principle effective January 1, 2018.

The Company's most significant revenue categories are as follows for the year ended December 31, 2018.

Commission revenue represents gross commissions generated by our advisors for their clients' purchases and sales of securities and various other financial products such as mutual funds, variable annuities, and life insurance policies. We generate two types of commission revenue: front-end sales commissions that occur at the point of sale as well as trailing commissions for which we provide ongoing support, awareness, and education to clients.

We recognize front-end sales commissions as revenue on a trade-date basis, which is when our performance obligations in generating the commissions have been substantially completed. We earn commissions on a significant volume of transactions that are placed by our advisors directly with product sponsors, particularly with regard to mutual fund, 529 plan, and variable annuity and insurance products. As a result, management must estimate a portion of its commission revenues earned from clients for purchases and sales of these products for each accounting period for which the proceeds have not yet been received. These estimates are based on the amount of commissions earned from transactions relating to these products in prior periods.

Note 1 - Summary of Significant Accounting Policies (continued)

Commission revenue includes mutual fund, 529 plan, and variable product trailing fees, which are recurring in nature. These trailing fees are earned by us, based on a percentage of the current market value of clients' investment holdings in trail-eligible assets, and recognized over the period during which services are performed. Because trail commission revenues are generally paid in arrears, management estimates the majority of trail commission revenues earned during each period. These estimates are based on a number of factors including market levels and the amount of trail commission revenues received in prior periods.

A substantial portion of our commission revenue is ultimately paid to our advisors. We record an estimate for commissions payable based upon payout ratios for each product for which we have accrued commission revenue. Such amounts are recorded by us as commission expense.

Property, Equipment, and Depreciation

Property and equipment are carried at cost. Depreciation is provided using the straight line method over the estimated useful lives. Expenditures for maintenance and repairs are charged to expense as incurred.

Unearned Assessments

Unearned assessments represent fees that have been paid to the Company by their registered representatives but have not yet been earned by the Company. When earned, amounts are included in other income on the statement of income.

Advertising

The Company expenses advertising costs as they are incurred. The total advertising cost for the year ended December 31, 2018 was \$9,062.

Income Taxes

The Company is organized and operated under Subchapter S of the Internal Revenue Code. In lieu of corporate income taxes, the shareholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal or state income taxes has been included in the financial statements at December 31, 2018.

As of December 31, 2018, the Company's income tax returns for years 2017, 2016, and 2015 may be subject to examination by the IRS, which normally may be subject to an examination within three (3) years after the returns are filed.

Concentration of Risk

The Company maintains interest-bearing cash deposits at a bank that is insured by the Federal Deposit Insurance Corporation up to \$250,000. At December 31, 2018, the Company had cash in excess of the insurance limits in the amount of \$671,635.

Note 1 - Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Operating Lease

The Company leases office space under an operating lease with a related party, which has expired. As such, the Company and the related party have agreed to continue the lease on a month-to-month basis with monthly payments of \$5,000. For the year ended December 31, 2018, rent expense related to this lease was \$60,000 and is included in the occupancy expenses on the statement of income. Total occupancy expenses for the year were \$61,946.

Note 3 - Retirement Savings Plan

The Company has adopted a 401(k) retirement plan for employees. Employees are eligible to participate if they have attained the age of 21, and are credited with one year of service. The Company matches employee contributions discretionarily. Retirement plan expense for the year ended December 31, 2018 was \$19,770. These expenses are included in the other expenses on the statements of income.

Note 4 – Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1) which requires the maintenance of minimum net capital, and requires that the ratio of aggregate indebtedness to net capital shall not exceed certain limits. As of December 31, 2018, the Company had net capital of \$560,459 in excess of its required net capital of \$89,230. The Company's ratio of aggregate indebtedness to net capital was 2.06 to 1.

Note 5 - Statement of Changes in Subordinated Borrowings

The Company had no subordinated borrowings at any time during the year ended December 31, 2018; therefore, a Statement of Changes in Liabilities Subordinated to Claims of Creditors has not been included in these financial statements.

Note 6 - Disaggregated Revenue From Contracts With Customers

The following table presents revenue by major source:

Variable Contracts Commissions	\$ 8,074,269	
12B-1 Fees	7,922,432	
Mutual Fund Commissions	1,545,124	
Insurance commissions	1,452,925	

Total Revenue from Contracts with Customers

\$ 18,994,750

Note 7 - Contingencies

In the normal course of business, the Company is subject to proceedings, lawsuits, and other claims. Such matters are subject to many uncertainties, and outcomes are not predictable with assurance. Consequently, management is unable to ascertain the ultimate aggregate amount of monetary liability or financial impact with respect to some of these matters as of December 31, 2018. Management believes that after final disposition, any resulting financial impact would not be material to the annual financial statements for some of these matters.

Note 8 - Subsequent Accounting Pronouncements

FASB has issued ASU No. 2016-02, *Leases* (Topic 842). The core principle of the new standard is that lessees should recognize assets and liabilities arising from all leases with a term of 12 months or more. Nonpublic entities are required to adopt the new standard for annual reporting periods beginning after December 15, 2018. Management is evaluating the impact of this new standard on its financial statements.

Note 9 - Subsequent Events

The Company has evaluated subsequent events in accordance with Accounting Standards Codification Topic 855, Subsequent Events, through February 25, 2019, which is the date the financial statements were available to be issued.
